Authorization for this examiner's amendment was given in a telephone interview with Atty. Mark Kusner on 7/25/2005.

The application has been amended as follows:

In claims 1 and 9, line 5 in each, the comma after "assembly" has been deleted.

In claim 10, line 1, "2" has been deleted to correct the dependency, and in line 2, --the system includes a source of--has been inserted following "wherein", and --which--has been inserted following "acid", and --the microbial deactivation fluid--has been inserted prior to "circulated".

In claims 14, 18 and 22, the recitation of "PTFE or PVDF" has been deleted and --polytetrafluoroethylene or poly(vinylidene fluoride)--has been inserted therefor.

The following is an examiner's statement of reasons for allowance: the Examiner finds the arguments, together with the amendment of the claims, presented 5/2/2005 persuasive, the closest prior art of record failing to teach or suggest the specific
